

Quality is the #1 customer concern

Meet your customer's quality expectations the easy way.

Use our inspection services to advertise your product's quality by using our inspection marks. Any of these marks may be achieved by regular, on-site continuous inspection, integrated quality assurance system, or by using a USDC approved HACCP system.

The USDC Seafood Inspection Program can:

- Certify to your client's specifications
- Ensure product meets all international export requirements
- Certify that your product meets our quality standards
- Offer HACCP training programs for plant personnel at your place or ours
- Assist in writing and implementing a HACCP plan
- Inspect the plant's sanitation procedures
- Help write specifications for product from your suppliers
- Ensure accuracy of product labeling

Seafood safety is the law! Need some assistance to comply?

With our assistance and expertise you can have confidence that the products you sell meet regulatory safety requirements.

For all segments of the seafood industry we can:

- Review your sanitation SOPs and GMPs
- Assist in compliance with the FDA HACCP rule

Make the Seafood Inspection Program YOUR partner in seafood quality and safety!

**Increase consumer confidence
in seafood!

"It is our customers who perceive the value of the USDC mark..."
Singleton Seafood Company

We have over 40 years experience in seafood inspection and have offered HACCP services since 1992.

Our expert staff has trained over 4,000 people in HACCP in the US and in 21 countries.

Participate in one of our pre-scheduled workshops or let us customize a program at your location, designed to meet your unique needs.

Our training is available in three languages:

English
Spanish
French
